

Appendix G. Detailed Chemical Guidance Document

This Chemical Guidance Document provides readers with a detailed overview of the types of chemicals used in textile and leather goods manufacturing. It also offers information on many aspects of apparel manufacturing, from raw materials to finishing and applications. It is best used as a reference for understanding particular aspects of manufacturing and the chemical risks involved.

RESOURCE: Detailed Chemical Guidance Document

The document is divided into sections with a table of contents and index of chemicals for easy reference and navigation. If viewed onscreen, it can be searched for specific terms using the Find (Ctrl-F) function in the PDF viewer.
